First-Responder's *news*

ADDRESSING THE NEEDS OF FIRST-RESPONDERS AND HELPING THEM BUILD A SECURE FUTURE.

Did you know that AirBoss-Defense has been chosen by the US DoD joint services to offer all US military personnel the best CBRN hand wear and footwear solutions on the market today?

About CBRN...

Worldwide governments and citizens are viewing with growing concern the potential threat posed by **Chemical, Biological, Radiological, or Nuclear** (CBRN) weapons in the hands of terrorists. A wide range of potentially deadly chemical and biological (CB) agents may be relatively easy to produce or otherwise acquire.

It is not a secret; terrorist attacks are increasingly being seen throughout the world, whether in England, USA, Spain, Japan or the Middle-East.

A recent Intelligence Services publication analysing the current CBRN threat found the following conclusions:

- although it is impossible to estimate the precise timing of a chemical agent terrorist attack, the technical obstacles to such an attack are by no means impossible to overcome;
- the threat appears to be growing;
- despite increased attention to the threat since the Tokyo subway attack, society remains

highly vulnerable to such attacks;

- it is not necessary to use commonly referenced agents such as Mustard Gas or Sarin, as attacks on local industrial chemical stockpiles can themselves be used as weapons;
- even hoaxes - which are increasing in number and becoming progressively more credible - can cause enormous disruption to society, in some cases perhaps achieving the ends of the terrorist even without an actual attack.

All first responders everywhere are faced with the potential for a CBRN incident. The two basic elements to a successful intervention are training & equipment. First responders spend numerous hours training for the unthinkable, but how much is invested in the best possible equipment?

AirBoss-Defense has been chosen by the US DoD joint services to offer all US military personnel the best CBRN hand wear and footwear solutions on the market today. We invite you to contact your local distributor to find out why.

AIRBOSS-DEFENSE ON THE ROAD

Firehouse World

February 5th, 6th and 7th, 2008 (Exhibit Hall)

AirBoss-Defense is expanding around the globe ...

AirBoss-Defense is proud to announce that Pacific Helmets Australia has just become an authorized AirBoss-Defense distributor for Australia and New Zealand. Pacific Helmets Australia is an Australian distributor of products to the Emergency Services Organizations. They have sub distributors located in New South Wales, Queensland, Victoria, Tasmania, South Australia, Western Australia and the Northern Territory.

Pacific Helmets Australia commenced business in Sydney in June of 1998 and has since grown into one of Australia's most prestigious emergency services distributors. Pacific Helmets Australia is certified to AS/NZS ISO 9002/1994.

For information regarding Pacific Helmets Australia, we suggest you refer to the company's web site at <http://www.pacifichelmetsaust.com> .

Pacific Helmets Australia's clients include State Rural Fire Brigades, Metro Brigades, SES, VRA, Police, Defense Force & Industrial Fire crews among others.

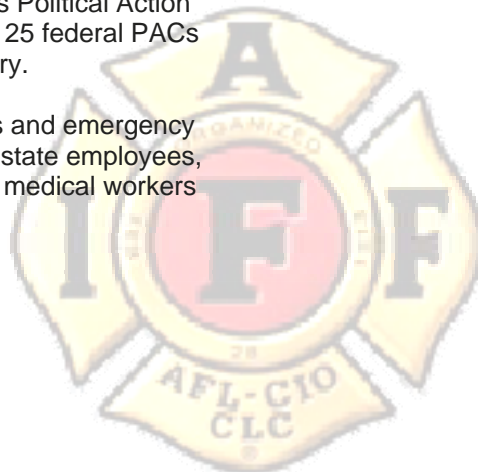

About the IAFF

International Association of Fire Fighters

The International Association of Fire Fighters, headquartered in Washington, DC, represents more than 281,000 full-time professional fire fighters and paramedics who protect 85 percent of the nation's population. More than 3,100 affiliates and their members protect communities in every state in the United States and in Canada. The IAFF is one of the most active lobbying organizations in Washington; its Political Action Committee, FIREPAC, is among the top 25 federal PACs among the more than 4,000 in the country.

In addition to city and county fire fighters and emergency medical personnel, the IAFF represents state employees, federal workers and fire and emergency medical workers employed at certain industrial facilities.
